

panache

GOOD FIT. BAD FIT.

The underband is firm,  
but not uncomfortable

The breasts are totally encased within the wire, which  
should sit flat against the body.

The underband is firm,  
but not uncomfortable.

If the underband is riding up,  
the back size is too big.

If the wires dig in at the underarm or the bust is bulging  
over the cups, a larger cup size is needed.

If the underband is riding up,  
the back size is too big.

CRAFTED FOR FIT. DELIVERED WITH STYLE.
